Tamerica ProCoil-53 Coil Binding Machine Model: PROCOIL-53

- Affordable
- Full Handle Bar
- Ideal for Office Use

The Tamerica ProCoil-53 is a manual machine whose punching function is made more convenient with a wide handle bar for two-handed operation. Its heavy-duty all-metal construction makes this machine durable. Fully disengaging pins prevent partial punches on the edges of the paper, which also means that this machine can accommodate multiple lengths. The hollow dies are ground extra sharp for precision cutting.
